| Position:            | Manufacturing/Quality Engineering Consultants   |
| Posted:              | 23 January 2009   |
| Location:            | Egypt   |
| Responsibilities:    | PAC is recruiting for experienced Lean Manufacturing and Supplier Quality Engineering consultants for assignment in the Cairo area. Candidates shall have 10+ years of hands-on experience within a variety of components and/or shop-floor environments within automotive. An ability to work collaboratively on multi-national teams and to mentor / coach others is desired. Candidates shall have skills-sets to train in QSB and/or SFE methodologies.   |
| Skills Requirements: | <ul style="list-style-type: none"> <li>• Prior successful experience as a <b>Consultant</b> to suppliers who are engaged in the process of improving their Quality Systems and Product Delivery to their Customers.</li> <li>• Previous hands-on experience in working as a <b>Manufacturing Engineer</b> to assess manufacturing capacity, identify problems, perform Root Cause Analysis, and develop successful and practical solutions to manufacturing problems. Ability to drive successful Plant improvements.</li> <li>• Expertise in <b>Lean Manufacturing</b> principles, and experience in facilitating <b>Lean Transformations</b>.</li> <li>• Experience as a <b>Mentor</b> or <b>Coach</b> to emerging market suppliers; helping them to understand the delivery criteria of European and North American customers.</li> <li>• Solid knowledge of <b>quality processes</b>, and experience in assessing, scoring and implementing them.</li> <li>• Ability to observe areas for improvement, and guide suppliers in a pro-active and positive manner toward reaching their business objectives.</li> <li>• Knowledge of the <b>'best practices'</b> in the global automotive industry</li> <li>• Ability to <b>evaluate process technology</b> on the plant floor and make recommendations.</li> <li>• Strong previous experience with the requirements of the automotive industry and suppliers for Quality and Delivery from their suppliers.</li> <li>• Experience in <b>working with all levels of personnel</b>; from shop floor to CEO. Part of the role will focus on coaching the upper management to implement new practices.</li> <li>• Must be able to think on your feet, provide consultative feedback, and also write reports as required by the scope of work.</li> <li>• Prior experience with <b>“Shop Floor Excellence (SFE)”</b> and <b>“Quality Systems Basics (QSB)”</b> very desirable. Those candidates who have been <b>trained and certified in QSB</b> are encouraged to apply – please include a copy of your certification with your c.v. and cover letter.</li> <li>• Must be fluent in English. Familiarity with Arabic language not mandatory, but helpful.</li> </ul> |
